ART IN PUBLIC PLACES PROGRAM

SCULPTURE GARDEN

The Public Art Commission's first Art in Public Places project was designed to complement the City's historic Community Building. The Sculpture Garden features three distinct works of art and is a serene oasis for personal reflection.

Premiere sculpture "Council" by Doug Hays, Paisley Florida. The purchase of this sculpture was made possible by a grant from the Mount Dora Community Trust.

Second sculpture "Eihei" by Carl Wright, Martinsburg West Virginia. The purchase of this sculpture was made possible by a grant from the McLin Foundation.

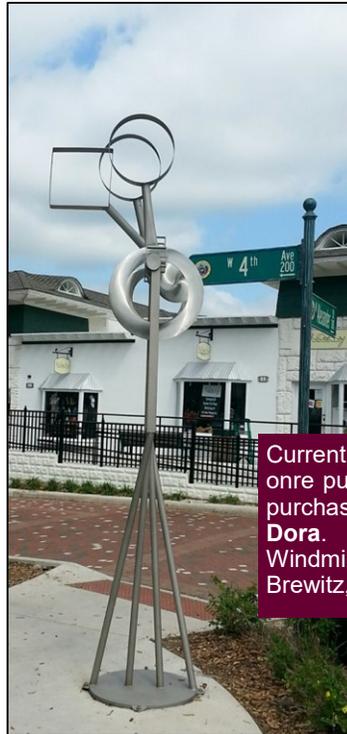

Third sculpture "Hummingbird" by Lina and Gus Ocamposilva, Clearwater, Florida. The purchase of this sculpture was made possible by a grant from the McLin Foundation.

SUNSET PARK

The Public Art Commission's second Art in Public Places project was in conjunction with phase one of the City's Downtown Improvement Project. Located in the heart of downtown, the current kinetic public art piece greets visitors as it is gently rocked by the breeze of nearby Lake Dora.

Currently, this location only has one public art piece which was purchased by the City of Mount Dora. The "Geometric Windmill" sculpture by Tom Brewitz, Newport, Minnesota.

OUR MISSION STATEMENT:

The Mount Dora Public Arts Commission is dedicated to acquiring and publicly showcasing works of art that will help enrich, educate and enhance our community.

HOW YOU CAN HELP:

Residents and business owners can make a tax deductible donation to the Mount Dora Art in Public Places Program in care of the United Arts of Central Florida, Inc., a nonprofit 501(c)(3) organization.
