June 20 - 24th
(M-F)

LEGEND:
Brick Roadway Cut / Restore - 
Concrete Cut / Restore - 

**PHASE 1 - CONDUIT
INSTALLATION**

During the first phase of this project underground conduit will be installed from 5th to 3rd Avenue.

The installation has been divided into five(5) weekly work zones.

Each work zone will require closure of Royellou Lane in the area indicated during the planned construction week.

Our goal is to return normal traffic flow during the week-ends.

The construction schedule will be updated weekly and posted at <https://ci.mount-dora.fl.us/>

Areas requiring brick and concrete removal and restoration are shown in red and blue.
